

AlphaTec®
Solvex®

37-900

A premium nitrile glove providing superior standards of safety for high-risk chemical handling

**A premium nitrile glove
100% individually testing
providing superior standards
of safety for high-risk
chemical handling**

- A newly developed nitrile film offers greater strength and superior chemical resistance
- Sets new standards for mechanical performance, with unrivalled abrasion resistance
- Designed to deliver optimal results in wet or dry work environments where chemical resistance is crucial
- Provides superb comfort for the wearer
- Guaranteed product quality means gloves can be used with complete confidence in dangerous situations

Industries

- Automotive
- Machinery and Equipment

Applications

- Delivery of parts to production line
- Painting or cleaning tools or robots
- Changing tools and dies

AlphaTec® Solvex®

37-900

A premium nitrile glove providing superior standards of safety for high-risk chemical handling

Key Features

- 100% sampling testing, every glove is individually subjected to a leakproof, air-pressure test and checked for defects before dispatch
- Produced in an ISO 9001 certified facility
- Fully reusable, with an unequalled abrasion resistance
- Out-performs all existing nitriles in permeation tests
- Reversed lozenge finish further enhancing levels of grip

Sensitisers

- Mercaptobenzothiazole
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitized to this ingredient in the glove and hence may develop irritant and/or allergic contact reactions.

Performance Standards
